Util Kiko Industria e Comercio, or simply "Kiko", is a Brazilian Company which works developing fast moving consumer goods for retail market. The company was founded in 1974, primarily with the intention of offering to warehouses brooms, squeegees, floor brushes, and ropes.

After realizing the needs of the customers, new products were added for the segment of bazaar, domestic utilities, hardware and tools, electrical and personal care products. In order to meet the needs of the practical kitchen, the Company has also started focusing on the disposable market, offering new products and better solutions, such as barbecue films, aluminum foil, food wrap, frying paper, among others.
